

## Bravilor Matic

The Bravilor Matic was developed as a commercial grade coffee machine to serve freshly brewed filter coffee, easily and quickly using a water mains connection. The Matic brews directly into glass decanters of 1.7 Litres capacity. The two self-regulating hot plates of the Matic keep the coffee at the right temperature. The Matic Twin is user-friendly and very easy to maintain.

- 2 decanters of 1.7 L (24 cups)
- The self-regulating functionality ensures the perfect coffee temperature according to the capacity inside the decanters.
- Each hot plate can be turned on or off independently
- Signals indicate when the coffee is ready and when the machine needs descaling
