

Fracino Velocino 1 Group

Introducing the Velocino 1 Group by Fracino, the state of the art hybrid espresso machine which pairs the convenience of a bean to cup machine, with the simplicity of a traditional espresso machine. Manufactured from the highest quality stainless steel, brass and copper components, it is a reliable and simple to maintain espresso machine, built to last a life time. This no nonsense new innovation has been specifically designed for sites with a high staff turnover, ensuring consistent, premium quality drinks each time, no matter how inexperienced the operator is. Combining the traditional E61 style chrome plated brass group with an automatic milk frother, advanced programming and an easy to understand control panel, the Velocino allows you to dispense all espresso based drinks straight into the cup at the press of a button.

- Water, coffee, milk volumes and timings can be programmed with optional delays to give the perfect consistency and appearance of drinks, with large and small options.
- Automatic heating cycle guarantees that the machine is only used when at the correct temperature and pressure, ensuring drinks are of the highest quality.
- Automatic cleaning cycles for group and milk frother.
- Automatic on/off feature to ensure the machine is only on during business hours to save energy.
- Service cycle counter, with an indicator to show when a service is due.
